# Shelter Island

Shelter Island, less than one hundred miles east of New York City, is a place of tranquil grandeur. Its rolling greenwood slopes and miles of white beaches have combined to make Shelter Island a famous summer resort. Here stands historic Sylvester Manor and its Quaker shrine in memory of those who, in Colonial days, fled persecution in New England and found a new home on this peaceful island. Accessible from Long Island by a seven-minute ride on six continuous ferries, boat or airplane, Shelter Island today maintains a delightful New England atmosphere and unhurried

life. Shelter Island has several hotels and many well-kept inns and boarding houses. The two golf courses (9 and 18 holes), tennis courts, bathing beaches, modern stores and delightful shoppes add to the vacationer's enjoyment. Swimming is unsurpassed in calm, crystal-clear waters which are safe and invigorating with temperatures of 68° to 72°F. Shelter Island, with its irregular coastline, offers several fine harbors for boats of all sizes. With protected moorings safe for the smallest sailing craft and with waters deep enough for seagoing yachts, Shelter Island is more than ever a boating mecca. Many yacht

clubs, cruising clubs and racing organizations make Shelter Island an important part of their cruises. The Island is serviced by two boat yards and three marinas and each week-end finds sailboat racing from Shelter Island's own yacht club — Shelter Island Yacht Club. Shelter Island has no closed season on salt water fish and no license is needed. Flounder fishing starts in early Spring; Porgies abound on sandy bottoms from June to October; Blue Fish run from June through October; Sea Bass on rocky bottoms from May through October; and the greatest sport

of all, Weakfishing in Peconic Bay from May 15 to October 15. Snapper Blues may also be caught near the shore during August and September. Carefully zoned to maintain fine residential areas, Shelter Island has two strategically located shopping centers, a town hall, fire departments, a public library, an airfield and an elementary and high school. Shelter Island has the activities of country and sea-shore combined with a touch of modern conveniences to make it a perfect vacation as well as a delightful year-round residence. There are no trails or camping facilities available.
